HONORARY SENIOR CLASS PRESIDENT

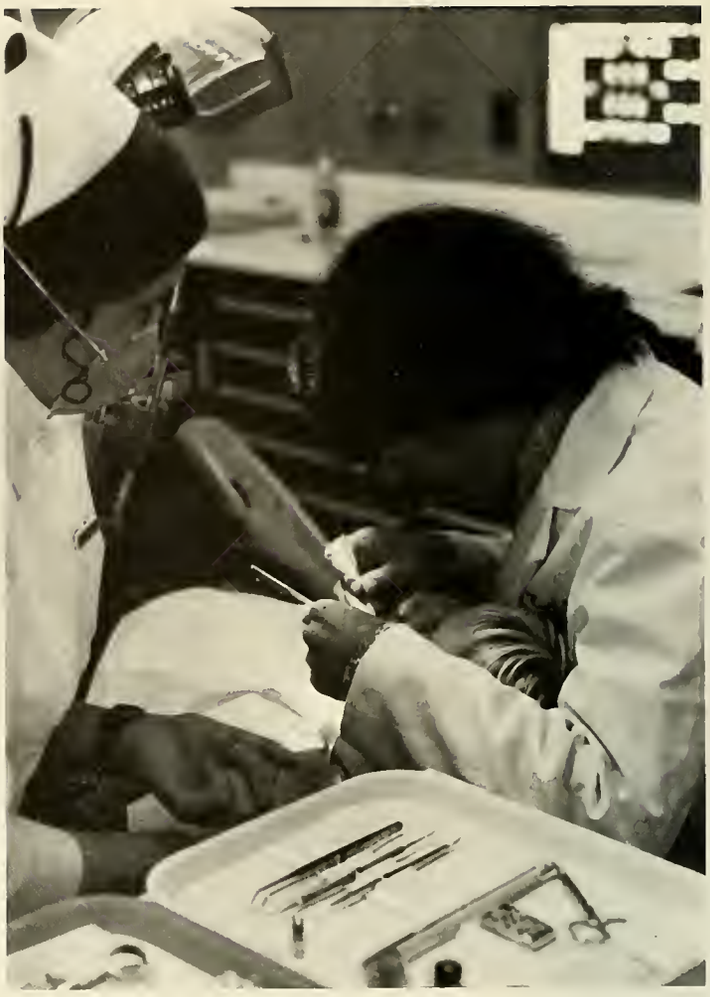
Dr. John J. Bergquist

In the past, the selection of an Honorary Senior Class President was based on the following qualities: friendliness, leadership, and professional dedication to one's work. The Class of 1975 wanted an individual who not only possessed these qualities, but someone who was more than a mere fulfillment of cliches. This honored person had to be an initiator of involvement with the students, and be willing to actively participate rather than watch from the sidelines.

This honor is bestowed on an individual who values and is responsive to the student viewpoint, as opposed to one who turns a deaf ear. He is an individual who withstands pressure from a demanding and inquiring class.

These are the qualities we find in you, Dr. John J. Bergquist. Although situations at times seem insurmountable, we thank you very much for being a meaningful part of the Class of 1975.

Beautiful Downtown Baltimore . . .



the first thousand days in dental school . . .

He who stares at the small
and near images
will have difficulty in seeing
and distinguishing
those that are great and remote.

GAMMA PI DELTA

Gamma Pi Delta was chartered in 1965 as an honorary student organization with scholarship and interest in the field of prosthetic dentistry as a basis for admission.

The society was named to perpetuate the name of Dr. Grayson Gaver, a dentist who dedicated his life to the cause and advancement of prosthetic dentistry.

Gamma Pi Delta makes for its objective the advancement of prosthetic dentistry through lectures, table clinics, and other academic activities with the purpose of increasing the knowledge of and stimulating the creative interests of the members and the dental profession.

The symbol of Gamma Pi Delta portrays the special interest of the society. The background silhouette, delta, symbolizes that prosthetic dentistry is that special interest, and yet is an integral part of the whole. The Gamma reminds us of Dr. Grayson Gaver, the man whose memory inspired the members of the society. The small flame represents Gamma Pi Delta, whose light is reflected on the entire world of dentistry. The abundant fuel symbolizes the potential of the dental profession whose initiative may be kindled by the small flame of Gamma Pi Delta.

The current advisors for Gamma Pi Delta are: Dr. James H. Greeley, Chairman of the Department of Fixed Prosthodontics and advisor for fixed prosthetics; and Dr. Suresh C. Choudhary, Professor in the Department of Restorative Dentistry, and advisor for removable prosthetics.

The officers are: Larry Fadjo, President; Rick Grubb, Vice President; Stu Dulin, Secretary; and Jamie Krochmal, Treasurer.

GORGAS

The Gorgas Odontological Society was organized in 1915 as a student organization, and later it was changed to an honorary student dental society with scholarship as a basis for admission. The Society is named after Dr. Ferdinand J. S. Gorgas, a pioneer in dental education and a great contributor to dental literature, and it was with the idea of perpetuating his name that the Society adopted it.

The Society makes for its objective the furtherance of dental knowledge by discussion and lectures. Gorgas is comprised of junior and senior members whose scholastic endeavors have placed them in at least the top third of their class. Four dinner meetings are held annually with guest lecturers selected to speak on diverse topics of interest to students and practitioners of the dental profession. At present, the faculty advisor, Dr. José Diaz provides aid and guidance in the selection of candidates, and the attainment of the Society's goals.

ALPHA OMEGA

Strengthened by a well-balanced program of educational, professional, and social activities, Alpha Omega enjoyed a busy year which was marked by increased participation of fratters from all classes. Intra-fraternity communication was at a peak with the help of open executive board meetings and monthly newsletters. Due to well coordinated planning, attendance at all activities was excellent; a trend we hope will continue in the future.

Psi Omega

The Psi Omega dental fraternity offers the dedicated dental student a stimulating source of diversion from the many hours of dental education, studying in the classroom, learning the many complicated lab procedures, and mastering clinical techniques. Through monthly dinner meetings devoted to current topics in dentistry and other various fraternal functions, the Psi Omegan advances the high standards of the dental profession while also allowing himself to relax so that his activities and thinking are more complete.

The current faculty advisor of Psi Omega is Dr. Glenn D. Steele, D.D.S.

Xi Psi Phi

Membership in Xi Psi Phi offers a social alternative to the Maryland Dental student. By utilizing the fraternity house located on North Calvert Street,Z I P has many social and informative events throughout the year. The annual Thanksgiving and Senior Banquets are always a large success as is the Halloween Costume Party. The monthly meetings at the house feature an invited speaker. These meetings allow the members of the different classes to assist each other with problems at school, as well as gain knowledge from informal questioning of the speaker. Membership is open to all interested students, and we feel the move is a good one.

WHO'S WHO
AMONG STUDENTS IN AMERICAN COLLEGES AND UNIVERSITIES

In order to be selected as a candidate for membership in Who's Who Among Students in American Colleges and Universities, a student must be an outstanding leader, scholar, citizen, and participant in both educational and extracurricular activities.

To be chosen for this honor, a student is first recommended by the University and is then voted on by the national organization.

Bioblend® Teeth make any denture look more natural.

Bone-like enamel. Wrap around translucency. Internally blended color. These are just a few of the esthetic refinements which distinguish Bioblend from all other artificial teeth. The result: Bioblend Teeth are now being used more often for complete dentures than any other teeth in the world. *Any other!*

Available in porcelain or plastic.

Congratulations To The Graduating Seniors

"Very ingenious presentation, sir.
But I have a practice to get going first."

With M.O.N.Y. and Paul Patterson, you can do both!

I've found in dealing professionally with dentists almost exclusively, that until your practice really takes hold, it's often tough enough finding cash for the absolute necessities. Do you agree? If so, call your professional at MONY for details.
